**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed on May 16, 2006 has been entered and made of record.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21-23,29,31-32, and 36-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Zissler (DE 19804031).

Regarding claim 21, which is representative of claim 29, Zissler teaches an assembly comprising a casing 1 and a transparent light conductor 3, wherein the light conductor includes a first portion housed in the casing at least partially, and a second portion projecting out of the casing (Abstract; Fig 1).

Considering claim 22, Zissler teaches wherein the second portion is bent relative to the first portion (Page 2, Paragraph 3).

For claim 23, Zissler teaches wherein the first portion includes as light receiving surface and a light-emitting surface for allowing light to exit (Abstract; Fig 1).

For claim 31, Zissler discloses wherein the second transparent member is formed separately from the first transparent member and arranged to lead light emitted

from the light-emitting surface of the first transparent member in predetermined direction (Fig 1).

Regarding claim 32, Zissler teaches wherein the second transparent member includes a first portion housed in the casing at least partially, and a second portion projecting out of the casing, the second portion being bent relative to the first portion (Abstract; Fig 1).

Considering claim 36, Zissler teaches wherein the first and second transparent members are fixed to each other (Fig 1).

Regarding claim 37, Zissler discloses wherein the first transparent member is formed with a positioning groove, the second transparent member being formed (Abstract; Fig 1).

#### ***Allowable Subject Matter***

4. Claims 24-28,30,33-35,38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: Examiner found no reference cited in its entirety, nor found any reason to combine any reference which teaches as assembly comprising a casing and transparent light conductor wherein the light emitting surface is formed with a plurality of indents each of which is provided with an inclined portion slanted relative to the light receiving surface; at least one of the light receiving surface and the light emitting surface being provided with a convex portion.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
